

# 1st Ibero-American Symposium on Innovation, Science and Technology

ONSITE Y VIRTUAL FORMAT

November 24 and 25, 2026 · Buenos Aires, Argentina  
International Call for Scientific and Technological Papers

CALL FOR PAPERS

## English version

Dear participant:

We are pleased to invite you to submit your research to the 1st Ibero-American Symposium on Innovation, Science and Technology - ITECH 2026, organized by the Fundación Instituto Iberoamericano de Tecnología (ITECH). The event will take place on November 24 and 25, 2026 in Buenos Aires, Argentina, in a hybrid format with both in-person and virtual participation.

ITECH 2026 aims to bring together researchers, academics, professionals, public institutions, companies and leaders from the science and technology ecosystem to present advances, strengthen international cooperation and foster innovation with social, productive and regional impact.

SUBMISSION

## Submission details

Authors are invited to submit abstracts, extended abstracts, short papers and full manuscripts related to the symposium themes. Proposals will be reviewed by the Scientific Committee and selected contributions will be included in the official program.

Each accepted contribution will receive institutional certification and access to networking, knowledge-exchange and international cooperation spaces with stakeholders across the Ibero-American science, technology and innovation ecosystem.

## Call areas

### Technological and productive innovation

Innovation, digitalization and transformation of Ibero-American production systems.

### Health, science and emerging technologies

Emerging technologies applied to health, prevention, well-being and quality of life.

### Development, society and sustainability

Science and technology at the service of sustainable development and social inclusion.

### Digital governance and law in Ibero-America

Cybersecurity, data protection, digital sovereignty and artificial intelligence: regulatory frameworks and ethical challenges.

## Leaders in Ibero-American science and innovation

### Dr. María Cecilia Colautti

President and Founder

Occupational health specialist. Researcher in nanotechnology, nanotoxicity and industrial processes.

### Dr. Thomas Webster

Vice President

Global pioneer in health-oriented nanotechnology and recognized among the most influential researchers in pharmacology and toxicology.

### Dr. Jose Vega Varduit

Scientific Committee Chair

Director of LANOTEC and CeNAT-CONARE in Costa Rica. Latin American reference in scientific innovation, advanced materials and technology transfer.

## KEY DATES

# Schedule

Until September 30, 2026	Abstract submission for key speakers. Proposals are submitted to the Scientific Committee.
October 15, 2026	Abstract acceptance notification. The Scientific Committee communicates acceptance or rejection.
