ABSTRACT

This document must be used as the template for abstracts submitted to the 1st Ibero-American Symposium on Innovation, Science and Technology. It contains the required structure and text formatting.

The first page must contain only the paper title, authors (up to six), institutional affiliations, abstract, keywords, and thematic area. The PAPER TITLE must be written in Arial 12, uppercase, bold, and centered. After one blank line, list the authors using their first name, middle initial, and last name, in Arial 10 bold and centered. Institutions must be listed only once and referenced using numerical superscripts. The corresponding author must be identified with an asterisk (*).

The abstract must be written in Arial 10, single-spaced, with no spacing between paragraphs and justified alignment. It must include the objective, methodology, results, and conclusions, and must not exceed 300 words. After a 10 pt space, include up to five keywords in Arial 10 italics, capitalizing the first letter of each keyword.

Keywords: *Innovation; Science; Technology; Research; Development.*

Thematic area: (Select one: Innovation - Science - Technology - Digital Transformation)
